

New Director of Food Service & Industry at Hilcona Ltd

As of 1 September, Hilcona's Foodservice division will be working under new management. Corsin Bollinger succeeds Hans-Peter Frei as Director of Food Service & Industry and member of the Hilcona Management Board.

Swiss citizen Corsin Bollinger is taking over from Hans-Peter Frei, who will step down from the company's Management Board on 30 August 2024 after deciding to take on a new professional challenge for personal reasons. "We have a great deal of respect for his decision, although we deeply regret it. Under the leadership of Hans-Peter Frei, the Hilcona Food Service division has developed into an innovative, growing and financially successful part of Hilcona. I would like to thank Hans-Peter for his outstanding commitment and wish him and his family all the best in the future," said Dr Martin Henck, CEO of the Hilcona Group.

Experienced business expert

His successor as the Director of Food Service & Industry will be Corsin Bollinger (50), who has led Hilcona Food Service Switzerland and Austria since 2021. With his sales and marketing expertise, over 20 years of national and international experience in leading consumer goods companies, and broad knowledge and leadership skills, Corsin Bollinger has the qualities required to continue building on the successful leadership of Hans-Peter Frei in his role as Director of Food Service & Industry and member of the Hilcona Management Board. Corsin Bollinger has been an important driver of digitalisation and close partnerships and collaborations across international markets, with a focus on the DACH region. "I am delighted that in Corsin Bollinger we were able to gain a highly experienced colleague with strong business expertise. On behalf of the Hilcona Management Board, I congratulate him on his new role and wish him every success," said Dr Martin Henck, CEO of the Hilcona Group.

Hilcona Foodservice as a proven partner

The experts in the Hilcona Food Service division supply the catering and cafeteria sectors – staff restaurants, industrial customers, hospital kitchens, schools, restaurants and hotels – with frozen, long-life and fresh ready-to-eat food. The national and international Food Service division currently employs 50 staff.
